WE'RE HERE TO HELP

Results for : **crate**

How are your pigs raised? Do you use gestation crates?

At A&W, we only work with Canadian farmers who meet or exceed the standards set out in food safety and animal care programs for pork known as Canadian Quality Assurance® (CQA®), Animal Care Assessment™ (ACA™). Right now, we're working with our suppliers to have 100% of our pigs raised in open housing systems and expect to achieve this by the end of 2021.

Does A&W do catering?
